Details of *ARC Centres of Excellence* to receive Funding from the Commonwealth
SCHEDULE B

Special Conditions for an ARC Centre of Excellence

B1. Personnel

B1.1 The Administering Organisation must ensure that all Personnel have such access to a Centre at all reasonable times and in such appropriate manner as accords with the purposes of the Centre.

B1.2 The Administering Organisation will use best endeavours to ensure that no Personnel cause the Administering Organisation to breach this Agreement.

B1.3 The Administering Organisation and Collaborating Organisations will pay the Personnel of a Centre at or above the prevailing salary levels for other academic staff at a similar level, so that Personnel at a Centre are no worse off financially than their academic peers of similar seniority at that organisation.

B1.4 The provision of recreation leave, sick leave and other conditions of employment for Personnel at a Centre will be those of the organisation at which they are employed.

B1.5 The Administering Organisation must allow Centre Chief Investigators to undertake fieldwork, or study leave, directly related to the Centre research program if requested. Any periods of absence must not exceed a total of six months in any 12 month period. This six month period may be taken at one time or spread across a 12 month period. The total duration of such absences should not exceed two years over the Centre Funding Period. Where total absences for a Chief Investigator during the Funding Period will exceed two years, the Administering Organisation must seek ARC approval of the absences exceeding the two year limit. Requests for approval of absences should be submitted to the ARC in advance of the absence.

B2. Centre Senior Management

B2.1 The Administering Organisation must appoint a person to be responsible for the activities of a Centre. This person may have the title Centre Director. The ARC must approve the appointment of a Centre Director.

B2.2 A Centre Director is expected to work predominantly on the activities of a Centre, as stated in section 8.2 of the Funding Rules, and must hold no other executive position at the Administering Organisation, a Collaborating Organisation or a Partner Organisation that would compromise her/his role as Centre Director.

B2.3 The Administering Organisation may appoint a person with the title Research Director to be responsible for the research activities of a Centre. A Research Director may lead a Centre subject to the appointment of a Chief Operations Officer. The ARC must approve the appointment of a Research Director.

B2.4 A Research Director is expected to work predominantly on the research activities of a Centre, and must not undertake administrative or operational functions which are not necessary for the management of the Centre’s research program. A Research Director should hold no other executive position at the Administering Organisation, a Collaborating Organisation or a Partner Organisation that would compromise her/his role as Research Director.

B2.5 The Administering Organisation may appoint a person with the title Chief Operations Officer, to be responsible for the administration and management of a Centre. A Chief Operations Officer must be appointed if the Centre is led by a Research Director. The Administering Organisation must request ARC approval of the appointment of a Chief Operations Officer.

B2.6 The request to the Commonwealth, as set out in clause B2.5, must include:

a. a curriculum vitae of the proposed Chief Operations Officer;
b. agreement from the proposed Chief Operations Officer to undertake the role;  
c. a letter from the Director outlining the suitability of the proposed Chief Operations Officer for the role; and  
d. a letter of support from the Administering Organisation agreeing to the appointment of the proposed Chief Operations Officer.

B2.7 If a Centre operates from more than one location (‘Nodes’), a Chief Investigator from each Node may be given the title Node Director. Node Directors, if named, will be responsible to the Director and Chief Operations Officer for the operations of that Node.

B3. **ARC Centre of Excellence Title**

B3.1 The Administering Organisation must ensure that a Centre uses the words ‘ARC Centre of Excellence’ in its title, unless otherwise agreed in writing by the ARC.

B3.2 The Administering Organisation must not allow the words ‘national’, ‘Commonwealth’ or ‘Australia’ to be used in the title of a Centre. A Centre may use the word ‘Commonwealth’ in its sub-title, for example, ‘Cultural Media Policy, a Commonwealth ARC Centre of Excellence’.

B3.3 Subject to clause B3.4, a Centre may continue to designate itself as an ‘ARC Centre of Excellence’ for a period of three years after the Funding Period ends. The Administering Organisation must request ARC approval of the title retention.

B3.4 A Centre which ceases or is terminated before the end of the Funding Period must not continue to designate itself as an ‘ARC Centre of Excellence’ following the cessation or termination.

B3.5 If title retention is approved by the ARC, the Centre must provide Annual Reports, as set out in clause 29.3, for each calendar year that the title is retained.

B3.6 The Administering Organisation must ensure that a Centre complies with any direction from the Scheme Coordinator concerning the continued use of the title ‘ARC Centre of Excellence’.

B3.7 This clause survives the expiration or earlier termination of this Agreement.

B4 **Advisory Committee**

B4.1 The Administering Organisation must ensure that a Centre Advisory Committee is established and maintained for the duration of the Funding Period, as stated in section 6.1.4 of the Funding Rules.

B4.2 The purpose of the Advisory Committee is to assist Centre management by contributing to the development of strategies and vision for the future relative to the proposed goals and objectives of the Centre, and by serving as a vehicle for creating better linkages between academia, industry and government. The Committee will offer advice to the Director and the Administering Organisation regarding the research focus of the Centre, the structure and general operating principles of the Centre, and intellectual property and commercialisation management.

B4.3 While the final composition of the Advisory Committee is a matter for the Administering Organisation and a Centre, it must provide broad representation of the research and end-user communities. An Advisory Committee may comprise some of the following: senior international researchers, industry or end-user representatives, community groups, academic expertise from other higher education institutions, or senior university staff such as the Pro Vice-Chancellor (Research).

B4.4 The Advisory Committee must meet at least once a year.
B5. Assets
B5.1 No expenditure of Funding shall be made on equipment items estimated to cost in excess of $150,000 without the prior approval of the ARC.

B6. Reviews
B6.1 During the year listed under the heading ‘Year of Centre Review’ in Schedule A, a Centre will undergo a rigorous and comprehensive external performance review undertaken by the ARC in its fourth year of operation.

B6.2 The review will evaluate a Centre’s performance against the Scheme objectives outlined in the Funding Rules and the specific Centre objectives as set out in the Centre Proposal, and the specific performance targets or milestones identified in the Centre Proposal and in Schedule D of this Agreement. The operations, management and governance of the Centre will also be evaluated.

B6.3 Continuation of Funding for the remaining years of the Funding Period will be dependent on the outcome of the review. A Centre may be terminated following the review if, in the opinion of the ARC, that Centre is not performing or operating at the level expected of an ARC Centre of Excellence.

B6.4 A Centre must not apply for funding in subsequent selection rounds for ARC Centres of Excellence until the scheduled review, as set out in clause B6.1, is completed.

B6.5 If a Centre review results in the termination of the Centre, that Centre must not apply for funding in the next available selection round for ARC Centres of Excellence.

B6.6 Ad hoc reviews of a Centre may be held at any time.
SCHEDULE C

Research special conditions

C1. *Importation of Experimental Organisms*: The Administering Organisation must ensure that, before experimental organisms are imported into Australia for the purposes of research to be undertaken by a Centre, the Administering Organisation or the Centre Director must obtain agreement in principle for the importation from the appropriate Commonwealth and State authorities.

C2. *Research Involving Humans or other Animals*: If any Centre conducted by the Administering Organisation involves research on or involving humans or other animals, the Administering Organisation must ensure that the codes adopted for these purposes by the National Health and Medical Research Council are complied with and that the Centre may not commence without clearance from the Administering Organisation’s Ethics or Biosafety Committee (or equivalent) and from any other relevant authority.

C3. *Deposition of Biological Materials*: Any biological material accumulated during the course of a Centre shall be transferred to an Australian body with statutory responsibility for control of such material. If no such body is available to take control of the biological material then the Administering Organisation must dispose of the material in accordance with the Administering Organisation’s established safeguards.

C4. *Genetically Modified Organisms*: If a Centre involves the use of gene technology (as defined in the *Gene Technology Act 2000*), then before the proposed research commences, the Administering Organisation must ensure that the research has been approved in writing by the relevant Biosafety and/or Ethics Committees (or equivalent) of the Administering Organisation. The Administering Organisation must retain all certificates relating to the above and will provide evidence to the Scheme Coordinator if required to do so. The Administering Organisation must be accredited with the Office of the Gene Technology Regulator.

C5. *Ionising Radiation*: If a Centre involves the use of ionising radiation, the Administering Organisation will ensure that any personnel performing procedures involving ionising radiation are appropriately trained and hold a relevant current licence from the appropriate State authority. The Administering Organisation must retain all such licences and provide them to the Scheme Coordinator if required to do so.

C6. *Social Science Data Sets*: Any digital data arising from a Centre involving research relating to the social sciences should be lodged with the Australian Social Science Data Archive (ASSDA) for secondary use by other investigators. This should normally be done within two years of the conclusion of any fieldwork relating to the research. If a Chief Investigator is not intending to do so within the two-year period, she/he should include the reasons in the Final Report.
